Hi Ruth:

I wanted to connect you with [Priv](#) [Privacy](#). He and his team have generously agreed to volunteer their time and resources to help with your project.

[Priv](#), Ruth is with Dayton Heights Elementary School, and had reached out for assistance with concrete removal, specifically for a project that they are working on.

Please let me know how we can be of assistance, moving forward.

Best,
George

Hello Ruth,

When you have a minute, please feel free to call me on my cell or send an email to go over what you need done.

We're looking forward to help.

Thanks,

Hi Ruth,

Based on the project description from George the asphalt removal could be completed within an eight hour period. We can schedule asphalt demo to begin on any Saturday after February 8, 2020. We have coordinated with LAUSD Maintenance & Operations Department on similar past projects in order to comply with District specs.

We should move forward to the next phase for asphalt demo. As far as additional services please provide specifications for border walls, planter boxes, etc., & we'll let you know.

Thanks,

Priv

[WARNING EXTERNAL]

Hi [Redacted],

I'm writing just to you for this first email so that I can kind of set the stage of our situation and project, but the next phase will be to introduce you to my administration so that real things can start to happen. I am a coordinator, which means I will be facilitating a lot of our project, but when all is said and done, nothing can or will happen without the administration, so we may need to have you begin directly communicating with her once we get going.

Our vision is to create a large garden area to act as a living laboratory for science, gardening, and environmentalism. There is an area of our playground that has already been earmarked for the project, but in order to cut the asphalt, we will need official approval from our CPM at the district level. They do already know about the project vision, but as we didn't have the funds for the asphalt removal, everything has been on hold for a few years while I've tried to procure funding.

I am so excited that the George at the Office of Councilman Mitch O'Ferrell has helped put us together and I look forward to moving forward. So, I'm a little nervous about making sure that we communicate in a timely manor to be have whatever district meetings and site visits to approve the location and the cutting. Also, just so that I am totally clear about expectations, were you offering anything in addition to the asphalt cut and removal such as border walls or boxes?

Let's finish our opening, more casual correspondence about exactly what you can offer and a sense of your timeline before I officially move our communications to include my administrators.

Thank you so much! -Ruth
